

*What's Happening  
in 3<sup>rd</sup> & 4<sup>th</sup> Grade!*

Friday, October 16, 2015  
Posen Consolidated  
Schools

**3<sup>rd</sup> Math**

We began Topic 3, which is over addition and subtraction skills. This is a longer topic, and we started with addition. Also, if you notice on your child's homework blank circles after numbers that means that he or she didn't add a label when answering a story problem. This is an important step they need to learn, so I hammer this point.

**Fall Fest**

The Fall Fest, which is a fundraiser for the PCAC, will be held on Sunday, October 25<sup>th</sup>. The 3<sup>rd</sup>/4<sup>th</sup> grade basket is called The Tree of Life. I will be helping the students to make a group project that will be in the basket. We are asking for donations of scratch-off lottery tickets or cash donations. The money will go toward purchasing a tree/shrub to go along with the basket and additional lottery tickets.

**3<sup>rd</sup> Science**

We had our science test over Chapter 1 this past week. Now we are moving on to Chapter 2 and the needs of living things starting with plants.

**3<sup>rd</sup> Social Studies**

We worked on a project to wrap up Chapters 1 & 2 where the students had to make a brochure highlighting facts from one of the two chapters.

**4<sup>th</sup> Social Studies**

We had our test over Chapter 2. Everyone did a great job! On to Chapter 3.

**3<sup>rd</sup> & 4<sup>th</sup> Spelling**

I was very impressed with the overall scores on the spelling test this week. Keep up the great work of working with your children at home along with our work at school.

**3<sup>rd</sup> & 4<sup>th</sup> Language Arts**

This week we read the story "If You Made a Million". We also worked commands and exclamations.

**Have an  
amazing  
weekend!**
