-brevity

-bronchitis

-bronchiole

-accident

-calcite

-calcium

-canine

-away

-because

-been

-before

-better

Grading System: The majority of assessment is based on the points system. However, daily classwork and other assignments the students go over with me as a team, will be based on a simple check system.

Check +/ Advanced performance

Check/ Proficient

Check -/ Partially proficient (will be revisited individually or in a small group)

Not marked/ Below proficient (will be revisited individually or in a small group)

Formative assessment tools may come home in backpacks or Friday Folders. Some examples of these tools may be index cards, post-its, flashcards, math cards, tickets out the door, pamphlets, diagrams, illustrations, etc. All of which are tools used to assess student understanding. They are not included in the students' grades, and these items will not include a check or points for completing them. Students may be asked to take them home to teach an adult. This allows for a quick review, shared experience, and it also reinforces the concept. Thanks in advance for your cooperation and participation.

Homework/ Due Monday:

Scholastic News (Read and Do the on-the-back activities.)
